GLASS FOOD CONTAINER

What 's the difference between high borosilicate glass and tempering glass?
高硼硅玻璃跟钢化玻璃有什么区别？

Our glass food container which made of high borosilicate can withstand high temperatures(about 400°C) ,it also has good adaptability in the range of temp. It can be used in microwave and pre-heated oven.

The tempering glass is made of silica, soda ash, limestone and other natural components, it just can resist 200°C , it is through the glass screen surface ,and the by steel processing, it will be broken when it in difference temperature.

我们的玻璃保鲜盒产品采用高硼硅材质，耐热性能极强（耐热温度达400℃），它也能适应极大的温差，能在微波炉以及烤炉预热中使用。钢化玻璃是由二氧化硅、纯碱、石灰石组成，它只能耐热200℃，主要是通过玻璃表面进行钢化处理，极大的温差会导致其破损。

**HIGH BOROSILICATE HEAT-RESISTANT
GLASS FOOD CONTAINER**

☆高硼硅耐热玻璃保鲜盒☆

The hollow-type silicone sealing ring which is with large scope compression and quick resilience, can further strengthen sealing performance

中空型硅胶条的压缩范围大，复原能力强，更加提高密封性。

HIGHLY WELCOME TO BECOME EASYLOCK LOCAL DISTRIBUTOR

HIGH WELCOME TO BECOME EASYLOCK LOCAL DISTRIBUTOR ABOUT EASYLOCK

Leqishi Plastic is fascinated in the appointing of exclusive agents and distributors within America and Southeast Asia. A privileged amount price can be offered to you for your cooperation with us from the establishment of our branding in your market area. If you have any experience in distributing and are interested in joining forces with us, you are more than welcomed to contact us.

Advantages for Our Distributors:

- Various product series are suitable for you to establish a brand with premium quality products which have multiple capacities, ranging from 300ml to 4250ml.
- Strict implementing of ISO 9001 standard to ensure stability of our product quality.
- The monthly production capacity is over 1,000,000 pieces as for now and it's gradually increasing.
- The experienced R&D team develops new products every year to enrich the product series.
- Customized ODM services are offered for specific products development according to the demand in your target market.
- Superior response times.
- A flexible MOQ of trial order for an easy start.
- Preferential price and exclusivity once you are our exclusive agent.
- We promise rapid delivery. There's undeniably no delivery delay once the delivery time is confirmed by all the parties.
- Negotiable payment arrangements and diverse payment options like L/C, T/T, Western Union and PayPal are available.
- CIF prices and FOB prices are offered, and all importing documentation will be provided by us as well.
- Providing a localized version of our internet website.
- Partnering with smaller local dealers. All inquiries we received from your nominated region or from our own marketing channel will be forwarded to you directly once you become our exclusive agent.

Why Join Us?

- We, Easylock are the main supplier of premium plastic food containers in Shantou which plays a key role in manufacturing plastic products in China and exporting to the international market.
- Easylock products are perfect for the brand formation and proper marketing because the products include the whole series of food container, bake wares, lunch boxes and water bottles of premium quality that are certified by FDA, LFGB, and EU. All of these product series have their own selling point.
- Easylock has an own running factory hence a better control on quality, price and delivery can be worked out.
- We market online & offline on Google, AdWords, SNS, e-Commerce and trade show platforms in certain regions.
